Which way will you go?

Biz.Store:
*Electronic Stock
Management*

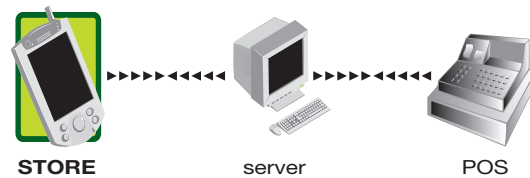

Stock Take
Shelf Refill / Replenishment Capture
Price Management
Stock Receiving
Store to Store Transfers
On-the-spot Shelf Label Printing
Returns

Biz.Store Mobile System

Biz.Store is the solution to the everyday mistakes and inefficiencies that have a direct effect on profits.

Biz.Store is an electronic stock management solution. Managing inventory is more efficient and information collected within your store is exchanged in an accurate and timely manner with your existing retail management system.

Biz.Store Unique Features

- Solution operates in both batch (cradle) and wireless communication mode
- Specially formulated mobile kit – easily transported between stores to minimise infrastructure implementations at every store
- Capable of storing 1,000,000 items with millisecond response
- Web based management console
- Built in security and auditing capabilities

Stock take will no longer be a total disruption to you. Biz.Store simplifies the whole process and counts are recorded with far greater accuracy.

Why Biz.Com?

User friendly

Our systems are worker process driven not just technology driven. They are designed according to business processes and workforce activities.

Flexible solutions

Our systems meet the needs of your business and can have functionality added quickly and easily to adapt to new market conditions, changes in business strategy and emerging technologies.

Seamless integration with host systems

Biz.Com has over ten years experience interfacing with a diverse range of enterprise/host systems and from many industries.

You'll be in good company

There are over 4,000 users of our systems including some of Australia's largest companies: Coles Supermarkets, Myer Grace Bros, Australian air Express, Toll Holdings and Crown Limited.
